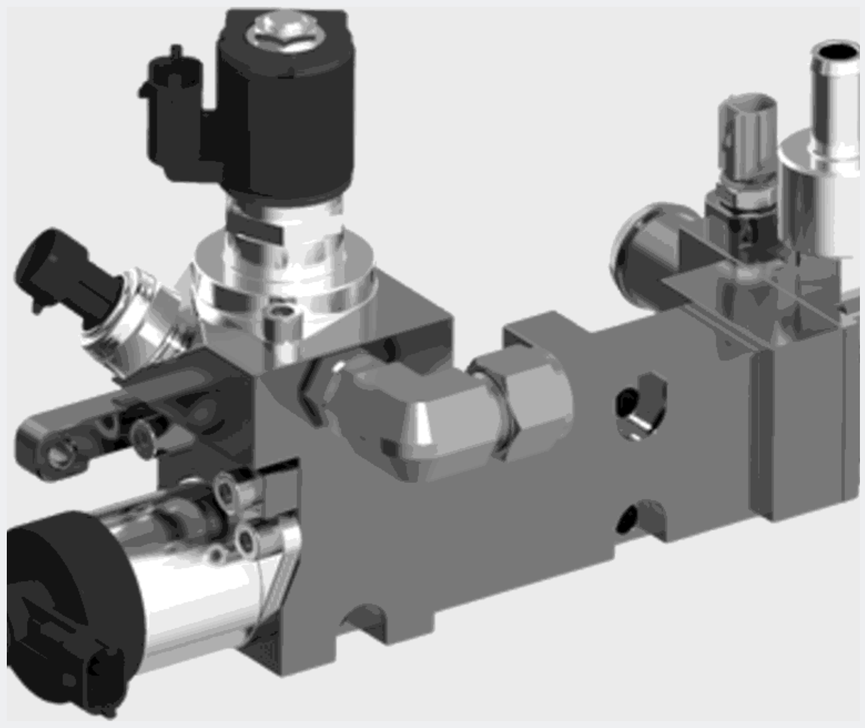
Ejector

FEATURES

- The ejector integrates core parts such as isolation valves and hydrogen injectors
- No energy consumption
- No ice-breaking start-up problem
- Compared with hydrogen pump, there are no dynamic sealing problems such as oil seals and gas seals



MAIN TECHNICAL CHARACTERISTICS

Working voltage	24V
Working mode	Closed
Working pressuere	12-20 bar.a
Matched power	4 g/s@13bar.a
Flow rate	>20000h
Leakage	≤10Ncc/h
