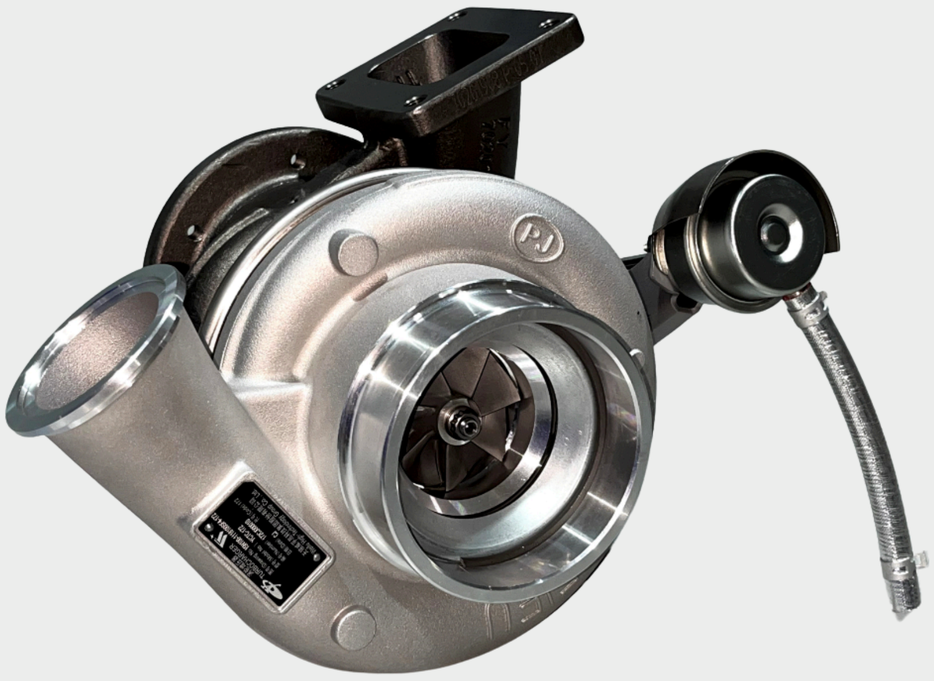
# Turbocharger for Methanol Engine

## FEATURES

- Full product models, suitable for methanol engines of multi-displacement/ power range
- Provide better engine power and fuel economy
- Clean energy

## ADVANTAGES

- Mature product development, realize batch installation
- Different technical solutions to meet the application needs of methanol engines
- Customized development based on customer needs



## APPLICATION

- Commercial vehicles
- Construction machinery
- Agriculture machinery

## MAIN TECHNICAL CHARACTERISTICS

| Product Series | Turbocharger for Methanol Engine |
|---|---|
| Applicable engine displacement | 6L-15L |
| Maximum compressor efficiency | 80%-82% |
| Flow range | 0.1 -0.6kg/s ( pressure ratio 2) |
| B10 lifespan | ≥800000km |
