Brake Master Cylinders

Brake Master Cylinders are basic yet essential components for Off Road vehicles equipped with mixed hydropneumatic braking systems.

- Basic products for vehicles using a mixed hydropneumatic braking system
- Master cylinders are normally coupled to an enhanced engine to amplify the force

MAIN TECHNICAL CHARACTERISTICS

DIAMETER	DISPLACEMENT	WORKING FLUID
Ø28.57 mm	31 cm^3	DOT
Ø31.75 mm	38.2 cm^3	DOT
Ø33.34 mm	43.5 cm^3	DOT
Ø34.94 mm	46.2 cm^3	Mineral oil/ DOT
